*Vietnamese cuisine has been perceived by many as one of the healthiest foods on the planet. Most dishes rely heavily on rice, wheat and legumes, abundance of fresh herbs and vegetables, minimal use of oil, and treatment of meat as a condiment rather than a main course.*

*Our goal at Gigi's restaurant is to serve local families and working professionals the freshest Vietnamese dishes possible using local vegetables, meats and fishes in a clean, comfortable family setting. When you're here, you're family. Enjoy your visit, and thank you for dining at Gigi's.*

*\*These menu items may be served raw or undercooked. Consuming raw or undercooked meats, poultry, seafood, shellfish, eggs or unpasteurized milk may increase your risk of foodborne illness.*
